

Rebate Application

ENERGY STAR MANUFACTURED HOMES

ENERGY STAR® homes provide comfort and energy efficiency that is unsurpassed in the manufactured home industry. We offer a \$700 homeowner rebate and a \$100 dealer incentive for new, electrically heated ENERGY STAR manufactured homes.

Why buy a ENERGY STAR home?

- **Increased Energy Efficiency** - An amazing number of energy-saving features are built into each home.
- **Increased Comfort** - Uncomfortable drafts are virtually eliminated. Your home stays an even temperature - cool in the summer and warm in the winter.
- **Quieter** - Outside noises seem to just disappear as a result of the increased insulation levels and tighter construction.
- **Healthier** - A ENERGY STAR ventilation system means moisture and other household pollutants aren't trapped and mildew doesn't grow.
- **Durable and Long-Lasting** - Quality insulation and ventilation systems control moisture - the most damaging threat to a home.
- **Increased Resale Values** - ENERGY STAR homes hold or increase their value better than other manufactured homes without ENERGY STAR certification.

Rebate requirements

- The home must receive electric service from Columbia River PUD and have an electric space heating system.
- Our Energy Experts must complete a verification visit. Please contact our Energy Experts at (503) 366-5470 or experts@crpud.org to schedule a visit once the home has been set up.
- Copies of the ENERGY STAR Certificate of Compliance and purchase agreement must be attached to this application.
- Both the dealer and the home buyer must complete and sign this application.
- Please allow three weeks for processing.
