

Skip the gas station, Charge at home.

Refuel your electric vehicle with a **Level 2 Charger** for a fraction of the cost of gasoline.

Save Money on Fuel

With Columbia River PUD's residential rate of 7.04¢ per kilowatt hour, customers with electric vehicles can save up to 75% on fuel costs compared to gasoline-fueled vehicles. Compare costs between models at crpud.net/electric-vehicles.

Fill Up While You're Asleep

Plug in your vehicle when you get home and it will be fully charged by the time you leave in the morning. It typically takes 4-6 hours for a Level 2 Charger to deliver a full charge, which can drive most EVs 150-300 miles.

Use Clean Energy

Columbia River PUD's electricity is 96% carbon-free. Vehicles that run on CRPUD power use fewer fossil fuels than traditional gas-powered vehicles.

Program Specifics

Fill out the Electric Vehicle Level 2 Charger Rebate Form and return.

Rebate amount is \$50.

Limit of one per physical location.

Charger must be rated for 208/240 volts or greater, and 16 amps or greater.

Program is limited to available funding and may change without notice.
