

Electric Charge Application

Pay your PUD bill with an automatic charge to your credit card.

Electric Charge can help you simplify your monthly bill paying by automatically charging your Visa, MasterCard, or Discover to make your PUD payment. You'll still receive a statement from the PUD each month that shows your electric usage and the amount of your bill. Your credit card statement will show the payment date and amount.

The deduction will become active when your bill states "**ELECTRIC CHARGE - DO NOT PAY.**" Please continue to pay your bill until then. Once Electric Charge is active, your payment will be drafted on or after the due date. To make changes to or cancel Electric Charge, please notify the PUD five (5) business days prior to the due/draft date on your bill.

***IMPORTANT! If your credit/debit card number, expiration date, or other information changes, you must contact our office to update your information in order to continue to use Electric Charge.**
