

Efficiency Rebates for New Homes

SAVE ENERGY, LIVE COMFORTABLY

New Home Construction

Building a new home is an exciting process. We offer several rebate programs that will help make your new home more comfortable and more energy efficient. These programs are available to residential customers of the PUD and are designed to help you cut energy waste and save money.

Heat Pumps - \$300 - \$1,200 rebate

A heat pump is one of the most energy-efficient ways to heat and cool your home. We offer a rebates for the installation of an air-source heat pump system in your new home.

ENERGY STAR® Appliances - \$20 - \$50 rebate

We offer rebates on the purchase of ENERGY STAR qualified clothes washers and dryers. Rebate amounts vary from \$20 to \$50.

Heat Pump Water Heaters - \$150 - \$300 rebate

Our Heat Pump Water Heater program provides rebates and quality assurance to PUD customers who install qualified models in their new home. By transferring heat from the air into the water, a heat pump water heater can cut your water heating bill by up to 60%.

We partner with Efficiency Services Group (ESG) for our rebate programs. For more information about the PUD's new home construction rebates, or if you are building an ENERGY STAR certified home, please contact our ESG at (888) 883-9879 or email rebates@esgroupllc.com.

We partner with Efficiency Services Group to bring you this rebate program.
