

Generate your own power, Earn monthly savings.

Reduce monthly energy bills and commit to renewable resources by using **solar energy and water heating systems**.

Why Choose Solar

- Generate clean and renewable power.
- Generate your own electricity or heat your water less expensively.
- Maintain power during an outage if you use a system that offers battery storage.
- Show your commitment to environmental stewardship.
- Lower your monthly energy bill.
- Enjoy a quiet system that requires very little maintenance.

Eligibility

- You must be one of our customers and receive approval from our Energy Experts prior to installation.
- If you have a photovoltaic system, it must be at least 1,000 watts (DC) in size, tied to the electric grid, and net metered.
- Your system must be new and installed by a qualified contractor.
- Expansions, replacements, or self-installed systems do not qualify.

Rebates

We offer a \$1,000 rebate for the installation of qualifying solar photovoltaic and/or solar hot water systems.

Program is limited to available funding and may change without notice.

Contact our Energy Experts:

Office: 64001 Columbia River Highway, Deer Island, OR 97054

Phone: (503) 366-5470 • Email: experts@crpud.org • Web: www.crpud.net

Social Media: [facebook.com/crpud](https://www.facebook.com/crpud) • twitter.com/crpudUtility

Project Steps

1. **Select a contractor.** Find a qualified Oregon Department of Energy Solar Contractor at www.crpud.net/solar.
2. **Submit a net metering application to the PUD for approval.**
3. **Sign a net metering and interconnection agreement with the PUD.** (Not necessary for solar water heating systems.)
4. **Have a contractor install your system.**
5. **Have the PUD inspect the final installation.** The PUD then pays an incentive to you or your contractor.
